

Go Green

Life without limits for people with disabilities™

UCP of Stanislaus County is going green for a cleaner environment and a cleaner community, and we want you and your business to join us. The “Go Green with UCP” program provides employment training and employment opportunities for people with disabilities; it helps divert waste from landfills and provides a cost-effective recycling solution for your business.

The Go Green with UCP recycling program’s work crews consist of people with disabilities under supervision of a job coach. The training being provided to the individuals with disabilities is similar to the type of training being provided in other recycling centers. The training helps prepare the individuals in the program for integrated employment in the community.

Your donation of recyclable materials may be eligible for tax deductions, see your tax professional for more information. “Go Green with UCP” is a Certified Community Service Program through Cal Recycle, the state of California’s Beverage Container Certification and Registration Branch; and a winner of the City of Modesto’s Business Recycling Award for 2012, 2013, 2014 and 2015.

To help identify our work crews, look for our truck decorated in green with the UCP logo on the side. Our work crews will also wear identifiable work vests and carry a UCP identification badge.

Go Green with UCP is a free service that offers recycling information and referral, customized recycling plans, recycling receptacles that will fit your needs and flexible pick-up schedules.

The “Go Green with UCP” Recycling program is also available for events. Give us a call and we can help create a customized event recycling plan that will fit your needs. We look forward to helping you solve your recycling needs, all you need to do is call to get started.
