

Public Safety Survey

Kristi Ah You Modesto City Council, District 3

Thank you for submitting The Public Safety Survey for District 3 and the College Area and also to those offering to volunteer. I will be reaching out to you through a Volunteer email list.

The results of your top five concerns:

1. Increase daytime presence and visibility of police in and around parks (bicycle units, etc.). This also includes looking at ordinances.
2. Add cameras and monitoring to parks and high crime areas.
3. Add neighborhood preservation officers to better enforce city codes, such as zoning and nuisance issues.
4. Increase lighting in parks and neighborhoods.
5. Contract private security for daytime patrols of parks and neighborhoods to augment police efforts.

Two CANA neighborhood teams have already formed to work on the following concerns:

--Traffic Calming/Speeding

--Safe Kid Zone around playground in Graceada Park & replacement of burned playground equipment.

The focus on businesses that are contributing to issues in the CANA neighborhood is being attended to by The CANA Nuisance Mitigation committee.

Thank you all for your participation!

The survey was a result of the initial petition that was created by David Leach. I would personally like to Thank all involved in the effort to formulate a goal list for me to work on, as your advocate at city hall.

David also worked with us to create the survey (poll)

Kind Regards to all,

Kristi Ah You, Council member, District 3

"Your voice on Council."
